

CESAR LUIZ GONÇALVES

Crane Operator Level 3

Date of birth: July 24th, 1986

Nationality: Brazilian

Additional Languages: Basic English

Academic Background:

- Technical: Mechanics: RET – Technical Education Network

Safety Courses and qualifications:

- CBSP
- T-HUET
- MCIA Alph (Aircraft Firefighting Maneuver Team)
- CACI (Advanced Firefighting Course)
- CESS (Survival and Rescue Craft Course)
- CERR (Fast and Rescue Craft Course)
- NR - 37
- NR- 33
- NR- 35
- NR- 11
- NR- 12
- Crane Operator
- Cargo Handling Assistant
- Safe Start Course
- Safe Behavior Course in the Drilling Area
- High Pressure Washer Operator Course
- Cargo Handling Safety Training
- Scope Crane Training
- Fire Brigade Course
- Basic Painting and Mechanical Surface Treatment

- HSE (Health, Safety and Health) Training Environment and Safety
- Environmental Education Training for Onboard Work
- Safety in Moving Cargo
- Respiratory Protection Course
- Change Management for Observers
- Hearing Conservation Course
- Hand, Finger and Eye Protection Course

Professional experience:

2020 - present - **TECH, INSP ÓLEO E GÁS**

- Crane Operator

- Maritime Unit of Operation: P-54 and P-55
- Crane Types: NOV and Liebherr
- Mobilization and demobilization of materials and equipment on medium and large vessels.
- Crane operations on platforms and vessels, maintaining deck organization.
- Preliminary passage of the part through a scale contained in the crane before lifting.
- Testing of drive controls to ensure efficiency and safety in operations.
- Coordination and execution of logistics operations involving cranes, ensuring efficient flow of materials.
- Active collaboration in maintaining the safety and integrity of equipment during operations.
- Among other specialized activities related to handling materials in maritime environments and platforms.

2020 - 2020 - **C.S.E. MECÂNICA E INSTRUMENTAÇÃO S.A**

- Platform Assistant

- Maritime Unit of Operation: P-70
- Assist in connecting and disconnecting pipes on the drilling platform.
- Assemble and disassemble drilling rigs, making fittings, laying pipes and connecting drills.
- Perform related operations under the supervision of the platform operator.
- Active contribution to the efficient progress of work.
- Among other responsibilities related to operations on the drilling platform.

2017 - 2019 - **PERBRAS**

• Platform Assistant

- Maritime Unit of Operation: Garoupa, Pampo, PNA 1, PNA 2 and PCH2
- Connection and disconnection of pipelines on the platform.
- Assembly and disassembly of drilling rigs.
- Fittings, laying of pipes and connection of drills.
- Related operations under the supervision of the platform operator.
- Contribution to the efficient progress of the work.
- Knowledge of safety procedures on the platform.
- Effective collaboration in offshore drilling operations.
- Teamwork and effective communication.
- Compliance with maritime safety standards and regulations.

2015 - 2016 - **PERBRAS**

• Cargo Handling Technician

- Maritime Unit of Operation: P-17
- Assistance for all cargo movements (internal and external) on the oil platform.
- Assistance for aircraft and vessels, ensuring safe and efficient operations.
- Safe execution of cargo movements, including preparation for movements in offshore environments.
- Strict compliance with safety protocols during operations.
- Regular maintenance and inspection of crane equipment.
- Active collaboration in lifting and cargo movement procedures.
- Work in compliance with offshore safety regulations and standards.
- Contribution to the overall efficiency and safety of operations on the oil platform.

2010 -2015 - **PERBRAS**

• Crane Operator

- Maritime Units of Operation: P-10, P-17 and P-23
- Crane Types: Seatrax, American, Patriot and Liebherr
- Mobilization and demobilization of materials and equipment on medium and large vessels.
- Crane operations on platforms and vessels, ensuring the organization of decks.
- Preliminary passage of the part through a scale contained in the crane before lifting.
- Testing of drive controls to ensure efficiency and safety in operations.
- Use an overhead crane to move loads.
- Collaboration in all phases of the lifting process, from planning to execution.

2009 - 2010 - **PERBRAS**

• Platform Assistant

- Maritime Units of Operation: P-17
- Assistance in connecting and disconnecting pipelines on the platform.
- Assembly and disassembly of drilling rigs, including fittings, laying pipes and connecting drill bits.
- Execution of related operations under the direct supervision of the platform operator.
- Active contribution to ensure the efficient progress of activities on the drilling platform.
- Collaboration in all phases of the process, maintaining the focus on efficiency and safety.
